We are a fast-growing company who is looking for top performing employees who are experts in their fields. We provide environmental health and safety solutions to organizations that need assistance with:

- Compliance Assurance
- Environmental Permitting
- Environmental Risk Management
- Environmental Sustainability
- Environmental Management and Training
- Remediation Services
- Health and Safety Support
- SEC Reporting Estimates
- Mergers, Acquisitions, and Divestitures
- Investigation and Remediation Activities
- PRP Project Management
- PRP Multiparty Coordination
- Environmental Related Negotiation Facilitation
- Environmental Financial Cost Estimating

Job Description

EHS Support provides a wide range of environmental services to a number of different types of clients, creating a fast-paced and dynamic atmosphere.

Typical job responsibilities would include, but not be limited to:

- Technical Support
 - Remediation Support
 - Site Investigation – drilling, soil sampling, soil gas probe installation and soil gas sampling, groundwater sampling and other investigative activities.
 - Conceptual Site Models
 - Field Planning and Oversight.
- Client Interaction
- Data entry and report writing
- Participating in field activities as needed.

Candidate Requirements

Candidate experience in environmental consulting is preferred but not required. The applicant shall list any licenses or shall state they are working toward Professional Geologist Certification.

All candidates must have a minimum of a B.S. degree in a related discipline (Environmental Science, Chemical or Environmental Engineering, Biology, Geological Sciences, or similar).

EHS Support expects all candidates to have:

- Strong interpersonal skills; established reputation with potential clients a plus.
- Effective written/verbal communication and organization/analytical skills; experience recording/writing detailed technical data and reports a plus.
- Ability to multi-task, maintain flexibility, travel, and work independently with minimal supervision.
- Proficiency with Microsoft Office products (primarily Word, Excel, and Access) at an advanced level.
- Strong writing skills are required and writing samples will be requested from qualified candidates.

If hired, the applicant should expect the majority of work to occur in Kentucky, Ohio, and West Virginia with the potential for short-term and extended travel outside of these areas.

Benefits:

EHS Support offers a competitive benefit package that includes healthcare coverage, life and disability insurance, flexible spending accounts, 401k, and financial advising.

Location:

EHS Support employees have the benefit of working from home offices. Employees are provided with basic office setup and supplies.

How to Apply:

Send resume, cover letter, and salary requirements to ehssupport@ehs-support.com.
