# Michelle Nylen

Ms. Nylen comes to EHS Support as a Senior Geologist and Project Manager. In this role, she will manage remediation and due diligence projects. Over the past 11 years, Ms. Nylen has worked on environmental site assessments, soil and groundwater investigations, Brownfield redevelopment, voluntary action programs, litigation support, and regulatory negotiations. These sites have included retail service stations, chemical storage, manufacturing facilities, and active and abandoned commercial properties. Ms. Nylen has extensive experience in large scale remediation projects and has regular interactions with a multitude of state regulatory agencies.
