

10 Golden Rules Of Safety

Work safely: I always comply with company safety policies and procedures, site safety rules, and conduct safety assessments prior to and during a task, as required.

Personal Protective Equipment: I always wear the necessary and appropriate personal protective equipment for the task.

I am always **'fit for work'** and am trained and competent to undertake my task.

Safe Body Positioning: I will assess and place my body in the safest position in relation to heights, suspended loads, moving equipment, and during materials handling

Contractor Management: I understand that contractors must be prequalified and approved to work on EHS Support projects.

High-Risk Operations: I understand the risks and necessary precautions of high-risk tasks (Such as confined space, energized systems, trenching and excavation, etc.)

Management of Change: I understand that prior authorization is needed for technical or organizational changes.

Correct Tools & Equipment: I use the appropriate tools and equipment for the task.

Reporting: I always address and communicate potential hazards, unsafe behaviors, incidents (including near misses) and positive recognition.

Driving Safety: I wear my seatbelt, obey the speed limit and only use a hands free device.
